Erratum: Estimating the dark matter halo mass of our Milky Way using dynamical tracers

by Wenting Wang,[★] Jiaxin Han, Andrew P. Cooper, Shaun Cole, Carlos Frenk and Ben Lowing

Institute for Computational Cosmology, University of Durham, South Road, Durham DH1 3LE, UK

Key words: errata, addenda – Galaxy: halo – Galaxy: kinematics and dynamics – dark matter.

Our paper ‘Estimating the dark matter halo mass of our Milky Way using dynamical tracers’ published in MNRAS, 2015, 453, 377 contained typographic errors in equations (12) and (6) as detailed below. Our code used the correct expressions in both cases; hence, none of our figures or conclusions are affected by these errors.

In equation (12), the power-law exponent in the denominator of the term:

$$\frac{R'^{2\beta+1}}{\left[\frac{R'}{1+R'} - \ln(1+R')\right] \left[\left(\frac{R'}{r_0}\right)^\alpha r_s^{-\gamma} + \left(\frac{R'}{r_0}\right)^\gamma r_s^{-\alpha}\right]^3} \quad (1)$$

was given as 2 in the original text. In full, the correct version of equation (12) is

$$P(r, v_r, v_t | \rho_s, r_s, \beta, \alpha, \gamma, r_0) = \frac{r_s^{-\alpha-\gamma} l^{-2\beta}}{2^{3/2-\beta} \pi^{3/2} v_s^3 \Gamma(\beta+1/2) \Gamma(1-\beta)} \times \int_{R_{\text{inner}}}^{R_{\text{max},t}} dR' (\epsilon(r) - \phi(R'))^{\beta-1/2} \times \left\{ \frac{(2\beta+1)R'^{2\beta} \left(\frac{R'}{1+R'} - \ln(1+R')\right) - \left[\frac{1}{(1+R')^2} - \frac{1}{1+R'}\right] R'^{2\beta+1}}{\left[\frac{R'}{1+R'} - \ln(1+R')\right]^2} \times \frac{(2\beta-\alpha) \left(\frac{R'}{r_0}\right)^\alpha r_s^{-\gamma} + (2\beta-\gamma) \left(\frac{R'}{r_0}\right)^\gamma r_s^{-\alpha}}{\left[\left(\frac{R'}{r_0}\right)^\alpha r_s^{-\gamma} + \left(\frac{R'}{r_0}\right)^\gamma r_s^{-\alpha}\right]^2} \right.$$

$$\left. + \frac{R'^{2\beta+1}}{\left[\frac{R'}{1+R'} - \ln(1+R')\right] \left[\left(\frac{R'}{r_0}\right)^\alpha r_s^{-\gamma} + \left(\frac{R'}{r_0}\right)^\gamma r_s^{-\alpha}\right]^3} \times \left[(2\beta-\alpha) r_s^{-\alpha-\gamma} \left(\frac{\alpha}{r_0} - \frac{2\gamma}{r_0}\right) \left(\frac{R'}{r_0}\right)^{\alpha+\gamma-1} + (2\beta-\gamma) r_s^{-\alpha-\gamma} \left(\frac{\gamma}{r_0} - \frac{2\alpha}{r_0}\right) \left(\frac{R'}{r_0}\right)^{\alpha+\gamma-1} - (2\beta-\alpha) r_s^{-2\gamma} \frac{\alpha}{r_0} \left(\frac{R'}{r_0}\right)^{2\alpha-1} - (2\beta-\gamma) r_s^{-2\alpha} \frac{\gamma}{r_0} \left(\frac{R'}{r_0}\right)^{2\gamma-1} \right] \right\}. \quad (2)$$

In equation (6), ρ_s should be $\rho(r)$. The correct version is

$$P(r, v_r | C) = \frac{1}{\sqrt{2\pi} r^{2\beta}} \int_{\Phi(r_{\text{max},t})}^{E_r} \frac{d\Phi}{\sqrt{E_r - \Phi}} \frac{dr^{2\beta} \rho(r)}{d\Phi}. \quad (3)$$

ACKNOWLEDGEMENTS

WW is grateful for discussions with Gwendolyn Eadie which lead to the discovery of the errors.
